

## **Who to believe?**

I wonder why US diplomats and presidents are still believed when they open their mouth. Especially when they are going to bring 'DEMOCRACY' by war to any country they want to occupy and possess. Are we independent from America? If so, we have to introduce a new remembrance day on the 4<sup>th</sup> of July for the complete world; **Independence from America Day**.

### **Occupied countries by US**

The following is a list of countries invaded by the US forces (naval, military and ultimately air forces) since its inception in order of major incidents. This catalogue derives heavily from the work of US academic Dr Zoltan Grossman's article "From Wounded Knee to Libya : a century of U.S. military interventions" [1], Gideon Polya's book 'Body Count. Global avoidable mortality since 1950' (that includes a brief history of all countries since Neolithic times) [2] and William Blum's book "Rogue State" [3]. This list includes instances of violent deployment of US forces within America (e.g. against demonstrators, miners etc), and includes small-scale bombing and military intervention operations, military evacuations of Americans and specific instances of explicit threats of use of nuclear weapons. The list does not include the 1801-1805 US Marine Barbary War operations against Barbary pirates based in Morocco, Algeria, Tunisia and Libya, and also ignores massive US subversion of virtually all countries in the world.

### **Is Iran really OUR enemy?**

Iran did not attack any country since 1897. Iran has only ONE ENEMY in the world. AMERICA. And this enemy status is coming from AMERICA, not from Iran in the direction of the US.
