**911TRUTHER.ORG**

**EARTH, Undisclosed Location** — Although the apartheid State of Israel has been touted as the “First Jewish State” since its official inception in 1949, the evidence detailed herein confirms beyond a shadow of a doubt that the Central European country of Switzerland was in-fact the first Jewish State.

While this fact has remained hidden since Switzerland was secretly founded in 1309, it has now been exposed for all the world to see. Consequently, it's highly likely that I, David Chase Taylor, will be targeted for assassination, kidnapping or arrest for alleged antisemitism or other crimes this December of 2016.

According to the [Encyclopaedia Judaica](#), the first documentation of Jews living in Switzerland dates back to 1214, roughly 95-years prior to the secret formation of Switzerland in 1309. In other words. Switzerland was home to Jews even prior to its official formation as a country.

This notion was reiterated by [Wikipedia which states](#) that the “History of the Jews in Switzerland reaches back at least a thousand years. [Jews](#) and [Judaism](#) have been present in the territory of what is now [Switzerland](#) since before the emergence of the medieval [Old Swiss Confederacy](#) in the 15th century”.

As revealed in the shocking book entitled “[Greenland Theory: Apocalypse Now](#)” (2014), Greenland is home to the one and only Greco-Roman Empire. Consequently, the Jewish people act at the behest of the Greco-Romans which is confirmed in-part by the fact that [90% of Roman holidays are Jewish holidays](#).

That is why the Jews are “[God’s Chosen People](#)” because the term “G.O.D.” is an acronym for “Greenland of Denmark”, the official name of Greenland. In other words, the Jews are “Greenland of Denmark’s chosen people” for they were specifically chosen by the Greco-Romans to rule the Underworld in their absence.

## 1. Jewish Symbolology of Switzerland

The notion that Switzerland was the first Jewish State is corroborated by the fact that the country of Switzerland is rife with Jewish symbolology. Firstly, the flag of Switzerland contains four “[Up Tack](#)” symbols (i.e., “ $\perp$ ”), otherwise known as the Hebrew letter entitled “[U+FB29](#)”. In order to hide this secret association, Jewish tradition was altered in the 19th century to [write the “+” symbol as an inverted “T” symbol](#). Coincidentally, like the flag of Switzerland, four “Up Tack” symbols are found within the seal of the Society of Jesus (see photo above) which is mainly composed of Jews. Secondly, the Latin name of Switzerland as well as its country code is “[CH](#)” (i.e., [ISO 3166-2:CH](#)) which is consonantly speaking the same as “[Chai](#)” (C+H), a sacred Jewish symbol meaning “Life” or “Life Force”. In the medieval [Kabbalah](#), Chai is the lowest (closest to the physical plane) emanation of God (i.e., Greenland of Denmark). That is because Switzerland’s primary role is to keep the Greco-Roman Empire safe which is exactly why it’s home to CIA Headquarters (see below). The acronym “CH” (i.e., [Confoederatio Helvetica](#)) numerically equates to the number “38” which is the addition of “19+19” or “S+S” which is consonantly speaking the

same as Suisse (S+S), the original name of Switzerland. Lastly, because Switzerland was the first Jewish state, scores of Swiss cities feature the Jewish Star of David on their respective coat of arms (e.g., Aesch, Binningen, Birsfelden, Brig-Glis, Erlach, Glarus, Glarus Nord, Huttwil, Maienfeld, Meilen, Montreux, Ostermundigen, Rheinfelden, Sarnen, Spreitenbach, Volketswil, Wettingen, Zollikon, etc.).

## 2. Switzerland Home to CIA Headquarters

The notion that Switzerland was the first Jewish State is corroborated by the fact that it is home to the one and only Central Intelligence Agency (CIA). As originally depicted in the March 31, 2015, Truther.org report entitled "10 Reasons Why Switzerland is Home to the CIA", evidence now confirms that Switzerland is in fact harboring the CIA. Exactly where CIA Headquarters was located within Switzerland remained a mystery until September 17, 2015, when Truther.org revealed that CERN is the secret entrance to CIA Headquarters beneath Lake Geneva. That is why the thorny-like cross found in the logo of the CIA is reflected in: a) the seal of Geneva, Switzerland, b) the seal of the Society of Jesus whose Jesuits evidently run the CIA; and c) the thorny-like ring shape of the Lord Shiva Statue at CERN, entrance to CIA Headquarters beneath Lake Geneva. Because Switzerland and her CIA's job is to "sift" or "Siv" (i.e., Shiva) out potential threats to the Greco-Roman Empire in Greenland, she is worshiped above all, namely through the likeness of Jesus (see below), the modern characterization of ISIS. In Judaism, Shiva is the name for the week-long mourning period after death which is derived from the Hebrew word "shiv'ah" which literally means "seven". Consequently, the name of Shiva is intimately associated with Israel, Jews and Judaism, namely: a) Arutz Sheva, the name of an Israeli media network identifying with Religious Zionism; b) "Sh'va", the name for the "20(2)" decimal in the Jewish Gematria's "Mispar gadol"; c) Shva, Hebrew niququd vowel sign written as two vertical dots underneath a letter; d) Yeshiva, a Jewish institution that focuses on the study of traditional religious texts such as the Talmud; e) Yeshiva

University, a private university with four campuses in New York City; and f) Yeshiva.co, a Jewish website which is part of the institutions of Yeshivat Beit El. Lastly, the notion that the CIA is Jewish in origin was foreshadowed by the television series entitled "Homeland" (2011-Present) which features the Jewish character of Saul Berenson (Mandy Patinkin) as the Director of the Central Intelligence Agency. Since art imitates life, real-life Directors of the CIA have also been of Jewish ethnicity, namely John M. Deutch who served from May 10, 1995 until December 15, 1996.

### **3. Switzerland Home to Society of Jesus**

The notion that Switzerland was the first Jewish State is corroborated by the fact that the city of Geneva, Switzerland is home to the Society of Jesus, a strictly male order of the Roman Catholic Church whose members are called Jesuits. The Jesuits are engaged in what they call evangelization in 112 nations on 6 continents, boasting Jesuit colleges and universities in over 100 nations around the world. In Eugène Sue's best-selling book entitled "Le Juif errant" (1844), or "The Wandering Jew" in English, she states that the Jesuits are a "secret society bent on world domination by all available means".

Considering that Jesus Christ was of Jewish ethnicity, it stands to reason that the Society of Jesus is also Jewish. Although the Society of Jesus was purportedly founded in the General Curia of Rome, Italy via a Papal Bull from Pope Paul III on September 27, 1540, the seal of the Jesuits is found on the original flag and seal of Geneva, Switzerland. The thorny-like seal of the Jesuits is reflected in the Sacred Heart symbol which represents the most widely practiced and well-known Roman Catholic devotions, taking Jesus Christ's physical heart as the representation of His divine love for humanity. The "physical heart" is representative Switzerland which itself is shaped like a heart (see below). Due to the inherently Jewish nature of Roman Catholic Orders, the term "Jesuit" was likely derived from the terms "Jew Suits". Similar to playing cards, different suits serve different purposes as each suit or respective order is compartmentalized (i.e., not knowing what the other is doing and for what purpose). In short, it appears that the Jesuits are the military order of the Roman Empire who routinely carry out assassinations, conduct espionage, stage terror attacks and trigger wars. According to the book entitled "Vatican Assassins" by Eric Jon Phelps, the man responsible for ordering these nefarious deeds is none other than the "Black Pope", the Jesuit Superior General. This notion is essentially confirmed by Wikipedia which states that "The Superior General

of the Society of Jesus is the official title of the leader of the Society of Jesus—the Roman Catholic religious order, also known as the Jesuits. He is generally addressed as Father General. The position sometimes carries the nickname of the Black Pope...". It is imperative to note that the Black Pope is the unseen hand of the Greco-Roman Empire in Greenland who retains command and control of the Underworld via CIA Headquarters in Geneva, Switzerland. The title of the "Black" Pope is self-evident for he is never seen, always remaining in the dark.

#### 4. Switzerland is Jesus (Suisse is ISIS)

The notion that Switzerland was the first Jewish State is corroborated by the fact that it is home to the the Society of Jesus (i.e., the Society of ISIS) in Geneva, Switzerland. In Latin, the name of the "Society of Jesus" is "Societas Iesu". This is because the name "Iesu" (S+S) was originally derived from the Greco-Roman goddess of "ISIS" (S+S), the patroness of witchcraft and magic. Consequently, the seal of the Society of Jesus contains the letters "IHS". Because the letter "I" was formerly an "S" in the Roman Score (i.e., the Roman alphabet), the seal of the Jesuits can also be read as "SHS". Since the letter "H" in the Roman Score is pronounced "Ch" or "Chi", meaning "Life Force", the seal of the Jesuits can be read as "ISIS Chi" or "Chi ISIS", meaning "ISIS is life" or "Life is ISIS". That is why ISIS (i.e., Jesus) is worshipped above all other gods for the very life of the Greco-Roman Empire depends on it. Consequently, the goddess of ISIS (S+S) is consonantly speaking the same as "Suisse" (S+S), the original name of Switzerland. That is why Jesus is routinely depicted with the Sacred Heart (see above photo) which coincidentally contains a Swiss cross burning above a heart that is wrapped in thorns. The heart is symbolic of the country of Switzerland which itself is shaped in the form of an actual heart. The thorns are indicative of the aforementioned Society of Jesus (whose seal contains thorns in the form of Sun rays and spikes), as well as the CIA (whose logo contains cross flanked by thorny spikes). The name of "Jesus" (J+S+S), which may be an acronym that is pronounced as "Jew ISIS", is consonantly speaking quite similar to Esus (S+S) and Hesus (H+S+S), a Celtic god worshiped in Scotland which coincidentally mirrors the Greco-Roman goddess of ISIS (S+S). That is why 18th century Druidic revivalist Iolo Morgannwg identified Esus (S+S) with Jesus (J+S+S) based on the strength of the similarity of their respective names. The Ichthys, a basic symbol consisting of two intersecting arcs that resemble the profile of a fish, was reportedly used as a Christian symbol in the first decades of the

2nd century. Its popularity among Christians was allegedly due to the fact that the five initial letters of the Greek word for fish (ICHTHYS) describes the character of Christ: “Iesous Christos Theou Yios Soter” (Ἰησοῦς Χριστός, Θεοῦ Υἱός, Σωτήρ), meaning “Jesus Christ, Son of God, Savior”. In other words, “Iesous” (S+S) was the first word to describe the deity that is now called Jesus. The Catholic Church corroborated this notion a few hundred years later when Pope John Paul II published a declaration on August 6, 2000, officially declaring that the title of Dominus Iesus means “The Lord Jesus” in English. Although the vowels have been changed (the former alphabet known as the Roman Score did not contain vowels), the consonant letters of “S” and “S” stay the same. In other words, Iesus (S+S) is the official name of Jesus according to the Catholic Church who not only wrote the Holy Bible but are admittedly the “sole Church of Christ” according to the Nicene Creed. Naturally therefore, they have the final word on the official name of Jesus. Consequently the worship of Esus, Hesus, Iesous, Iesus or Jesus is the unintentional worship of the Greco-Roman goddess of ISIS. Lastly, the main progenitor and propagator of Jesus (i.e., ISIS) is non-other than the Roman Catholic Church whose Pope is protected by the Swiss Guard. That is why the flag of Switzerland and the flag of Vatican City boast the only square sovereign-state flags in the world, making them the only two sovereign nations on Earth. In other words, Switzerland and Vatican City rule the entire world. The notion that Switzerland is Greco-Roman in origin is corroborated by the fact that a Greek Cross adorns the flag of Switzerland. The notion that the Jews are acting at the behest of the Greco-Roman Empire is corroborated by the fact that the Jews wear a Yamaka or Kippah (i.e., a Roman Catholic Zucchetto) which symolize the Roman Dome found in virtually every city on Earth. Although these caps tend to vary in color, the Kippah and the Zucchetto are symbolic of the Greco-Roman’s domination (i.e., dome) over humanity, mostly due to their horrific use and abuse of the Jewish race.

## 5. Jewish Immigration to Switzerland via Scotland

Although Aristotle claimed that the Jews originally emanated from India where they were known as the “Kalan” (C/K+L+N), a term which is consonantly speaking is the same as “clan” (C/K+L+N), evidence now suggests Jews originally immigrated to Switzerland via the Isle of Ewe in Scotland. According to Wikipedia, “The earliest date at which Jews arrived in

Scotland is not known. It is possible that Jews visited Scotland at the time of the Roman Empire's conquest of southern Britain, but there are no records of this". This is likely because the history of the Jews in Scotland is secret and has therefore been erased from the history books. Since the term "Ewe" is alternatively pronounced "Yew" (\'yü\), as in "Jew" (\'jü\), there are two competing theories about the meaning of the island's name. Either it was derived from the Old Irish "eo" meaning "yew tree", a possible reference to the lineage of the Jewish race which was spawned from the island, and/or it was derived from the Gaelic "eubh" meaning "echo" for the island was responsible for echoing Greco-Roman policy in the Underworld. Interestingly, the term "clan" is defined by the Merriam-Webster dictionary as: a) a Celtic group especially in the Scottish Highlands comprising a number of households whose heads claim descent from a common ancestor, b) a group of people tracing descent from a common ancestor, and c) a group united by a common interest or common characteristics. Although only conjecture, this is likely where the Scottish Rite (i.e., Ancient and Accepted Scottish Rite of Freemasonry) was originally derived from. Consequently, the links between the Jesuits and their Society of Jesus now headquartered in Geneva, Switzerland and the Scottish Rite are unmistakable. According to C. Lenning's "Encyclopedia of Freemasonry" (c. 1822), King James II of England resided at the Jesuit College of Clermont in Paris where his followers "fabricated certain degrees [of Freemasonry] for the purpose of carrying out their political ends". The boot-shaped Isle of Ewe, the boot-shaped Swiss canton of Bern, as well as the boot-shaped building of the Bank for International Settlements (BIS) in Basel, Switzerland, are all a tribute to the original boot of Italy which is a tribute (no pun intended) to the boot of the Greco-Roman Empire which has been placed on the collective throat of humanity, namely through the use of fiat currency and the practice of usury. This is likely where the terms "bank" and "banks" were originally derived from for gold and silver was delivered to the "banks" of the Isle of Ewe by the Greco-Roman Empire in Greenland. This notion is corroborated by the coat of arms of the Isle of Ewe which depicts a U-shaped Greco-Roman Clipper ship. Lastly, the term "I love you", possibly the most famous three words ever spoken, were evidently derived from the Isle of Ewe which sounds like "I love you" when pronounced. The term "I Love You" could also mean "I Leave Jew" for the Greco-Roman Empire chose to leave the Jews to rule the Underworld in their absence.

## 6. Switzerland Home to First Zionist Congress

The notion that Switzerland was the first Jewish State is corroborated by the fact that it was home to the First Zionist Congress which was held in Basel, Switzerland from August 29, 1897, until August 31, 1897. Since then, Switzerland has been home to 15 out of 22 Zionist congresses. The First Zionist Congress was the inaugural congress of the Zionist Organization (ZO) which later became the World Zionist Organization (WZO) in 1960. The founder and chairman of the inaugural event was Theodor Herzl who wrote in his diary on September 3, 1897, that "Were I to sum up the Basel Congress in a word – which I shall guard against pronouncing publicly – it would be this: At Basel I founded the Jewish State. If I said this out loud today I would be greeted by universal laughter. In five years perhaps, and certainly in fifty years, everyone will perceive it". Needless to say, the creation of the alleged "First Jewish State" of Israel in Switzerland was a colossal hoax designed in-part to sell the fraudulent notion that Switzerland was not in fact the first Jewish State.

## 7. Switzerland Home to World Jewish Congress

The notion that Switzerland was the first Jewish State is corroborated by the fact that it is home to the one and only World Jewish Congress (WJC) which was founded in August of 1936 in Geneva, Switzerland, home to the aforementioned CIA and Society of Jesus. According to its mission statement, the World Jewish Congress' main purpose is to act as "the diplomatic arm of the Jewish people". Consequently, the WJC has special consultative status with the United Nations Economic and Social Council. The main aims of the organization are to create "a worldwide Jewish representative body based on the concept of the unity of the Jewish people, democratically organized and able to act on matters of common concern". Exactly what role the WJC plays in international politics is not known, but the fact that it is never discussed publicly on radio or television suggests that it plays a vital role.

## 8. Switzerland Home to Jewish Intellectuals

The notion that Switzerland was the first Jewish State is corroborated by the fact that it has long been a haven for Jewish intellectuals. In other words, Jews have always felt safe living in Switzerland. Russian Jew Chaim Weizmann stated in his diary from 1898 that "If Russian Jewry was the cradle of my Zionism, the Western universities were my finishing schools. The first of these schools was Berlin, with its Russian-Jewish society; the second was Berne, the third Geneva, both in Switzerland". In other words, Switzerland has played a vital role in the global propagation of Zionist ideology. Consequently, Switzerland has been home to a plethora of notable Jews, namely: a) Georgi Valentinovich Plekhanov, a Marxist theoretician who founded the social-democratic movement in Russia before fleeing to Switzerland in 1880 where he continued trying to overthrow the Tsarist regime in Russia; b) Leon Trotsky, a Marxist revolutionary and theorist who studied law in Switzerland prior to becoming a Soviet politician and founding leader of the Red Army who engineered the transfer of all political power to the Soviets with the October Revolution of 1917; c) Albert Einstein, a noted physicist and peace activist who grew up in Switzerland, received his doctorate from Federal Polytechnic Academy in Zurich, and was employed by the Swiss patent office; d) Zev Jabotinsky, a "reporter" in the Swiss capital city of Bern for the Russian press and was elected as a Russian delegate to the Sixth Zionist Congress in Basel, Switzerland in 1903; and e) Ruth Dreifuss, the first-ever woman President of Switzerland from January 1, 1999, until January 1, 2000.

## 9. Switzerland Home to Global Banking System

The notion that Switzerland was the first Jewish State is corroborated by the fact that it is home to the global banking establishment, which rightly or wrongly so, has been accused of being Jewish in nature. Due to the wealth attained by the Knights Templar (who originally founded Switzerland along with the Order of Saint John), Switzerland began to develop a massive economic infrastructure within Europe, creating financial techniques that became the earliest forms of banking. Although the primary mission of the Order was militarial in nature, only 10% of its members were actual combatants. In 1150, the Templars in Switzerland began generating letters of credit for pilgrims traveling to the Holy Land (i.e., Israel). In short, pilgrims deposited their valuables with a local Templar preceptory (bank) in Switzerland before leaving. In turn, they received an official document stating the value of their deposit. When they returned from the Holy Land, they would use said official document to retrieve their funds in an amount of treasure of equal value. This innovative arrangement was an early form of banking that eventually led to the formal system known today as checks. In time, the Templars established financial networks across the known world. They acquired large tracts of land, bought and managed farms and vineyards, built castles and churches, became involved in manufacturing, both import and export, and purchased their own fleet of ships. Consequently, the Order of the Knights Templar arguably became the world's first multinational corporation. The Templars involvement in banking grew to the point where they began to practice usury, charging interest on money lent. According to a Templar researcher, "Since they weren't allowed to charge interest, they charged rent instead". Templar usury in Switzerland is evident today in Basel which is home to the Bank for International Settlements (BIS), the mother bank of all central banks. In short, the BIS creates money out of nothing and then charges countries (and their respective populations) interest on it, keeping them in a perpetual state of debt and economic

slavery. Since interest rates can always be manipulated, no country can ever escape from their state of perpetual debt, no matter how hard they work. Admittedly “the world’s oldest international financial organization”, the BIS funds 60 central banks (e.g., Bank of China, Bank of England, Federal Reserve Bank, etc.), which collectively make up 95% of the world’s GDP (gross domestic product). Although the BIS bills itself as an international organization of central banks which attempts “to foster international cooperation in those areas and to act as a bank for central banks”, it is solely responsible for orchestrating the world’s financial crises simply due to the fact that it alone has the power to create fiat currency (i.e., “intrinsically valueless money used as money because of government decree”). In other words, the BIS is responsible for creating and distributing the world’s fiat money supply which is in turn used to fund the world’s respective governments, intelligence agencies and militaries, as well as the assassinations, terror attacks and wars they routinely engage in at the behest of the CIA. As the financial wing of the Central Intelligence Agency, the BIS is fiscally responsible for funding virtually all of the chaos and madness seen in our world today.

### 10. Israel Created as Political Cover for Switzerland

The notion that Switzerland was the first Jewish State is corroborated by the fact that Switzerland, more than any other country on Earth, was responsible for the creation of the State of Israel. After all, Israel was created in-part as political cover for Switzerland, the first Jewish State. According to the Swiss government, “The establishment of the State of Israel is closely linked with Switzerland”. That is why as of 2015, the Swiss community in Israel is the largest in the Asian region, totaling roughly 18,702 persons. This is also why Switzerland has represented Israel’s interests in numerous countries (i.e., Hungary (1967–1989), Guinea (1967–1973), Ceylon/Sri Lanka (1970–1976), Madagascar (1973–1994), Liberia (1973–1983) and Ghana (1973–2002)). Conversely, Switzerland has represented the interests of Iran (1958–1987) and the Ivory Coast (1973–1986) in Israel. The name of “Israel” was created using a combination of Greco-Roman gods and

goddesses, namely Isis, Ra and El (i.e., IS-RA-EL). Consequently, the name of Israel contains the name of ISIS (S+S) which is consonantly speaking the same as Suisse (S+S), the original name of Switzerland. In order to draw attention away from Switzerland and her CIA, Israel was shaped in the form of a dagger, a modern tribute to the Sicarii and their terrorism committed at the behest of the Greco-Roman Empire in Greenland. The term Sicarii comes from the Latin word "Sica", meaning "dagger". Consequently, the Sicarii, or the "dagger men", were Jews who carried out assassinations and murders with short daggers in crowded places before slipping away. They also committed attacks in villages which they raided, plundered and set on fire in order to create fear among those who acquiesced or collaborated with Roman rule. They also kidnapped notables as leverage for the release of their own members which were being held prisoner. In short, the Sicarii Jews were used to commit terror attacks in order to destabilize the Roman Empire after the 13 Bloodlines of Rome vacated to Greenland. Titus Flavius Josephus wrote the only account of the activities of the Sicarii, stating: "...a different type of bandits sprang up in Jerusalem, the so-called Sicarii, who murdered men in broad daylight in the heart of the city. Especially during the festivals they would mingle with the crowd, carrying short daggers concealed under their clothing, with which they stabbed their enemies. Then when they fell, the murderers would join in the cries of indignation and, through this plausible behavior, avoided discovery".

### **ABOUT DAVID CHASE TAYLOR**

David Chase Taylor is a blacklisted American journalist and the editor-in-chief of 911Truther.org, the World's #1 whistle-blower website (Taylor's original website Truther.org was hijacked by the CIA and held for ransom in 2017, hence the change in web address). Because Taylor's blog 911Truther.org is the single-most popular alternative news website on the internet, it is repeatedly hacked and censored by the CIA and their countless bots. Naturally therefore, Taylor has been denied an official Wikipedia page since 2011. That being said, due to Taylor's rising popularity, the CIA was forced to give Taylor an Everybody Wiki page and Truther.org a RationalWiki page which legally-speaking constitutes as defamation, libel and slander which is defined as, 'the oral or written communication of a false statement about another that unjustly harms their reputation'. Although Taylor currently lives at an undisclosed location, he officially applied for political asylum in Switzerland back on July 17, 2015, after publishing The Nuclear Bible (2011), a book which foiled a nuclear terror attack at Super Bowl XLV in Dallas, Texas on February 6, 2011. Despite preventing World War III, Taylor was inexplicably denied political asylum in Switzerland by the Bundesgericht (i.e., the Supreme Court of Switzerland) because Switzerland harbors the one and only CIA whose secret headquarters lie beneath CERN at Lake Geneva in Switzerland. Taylor has also authored The Bio-Terror Bible (2012), which exposes the impending global biological pandemic, ObamaCSI (2012), which prevented a false-flag assassination 'event' targeting Barack Hussein Obama designed to give him the 'deadly wound' as depicted in Revelation 13:3, and Greenland Theory (2014), which exposes the true power structure of the World, especially in respect to Greenland and its primary proxy state of Switzerland.
