

Diseases

Summary of Disease/ Problems treated:

We have treated the following chronic diseases successfully, 99.5% without medication. We have had many people with “unexplainable” or “mysterious” diseases, so we just start them on the whole program, and add other things we think they may need according to what we observe and measure. We also recommend people to adjust their diet according to their needs. Many of the “untreatable infections” took anything between 1 – 10 weeks to clear up. We also work to change the mindsets from hopeless/helpless.

- Acne
- Addictions, be it alcohol, drugs or medical drugs
- All AIDS related diseases
- Allergies including people who are super allergic to most things
- Alzheimer’s – beginning stage – have not yet done the advanced stage
- Anemia
- Anorexia and Bulimia
- Arthritis – Rheumatoid and Osteoarthritis
- Asthma
- Autism
- ADD and ADHD
- Bilharzia
- Cancers –various
- Candida
- Cataracts
- Cholesterol
- Crohn’s disease and any other Bowel disease incl. diarrhea and constipation
- Dementia
- Diabetes
- Ear infections – acute and chronic
- Emphysema – HUGE improvement in quality and quantity of life – increased lung / breathing capacity – no lung or other infections, no more need for hospitalization. The ability to walk around again in a fairly normal manner
- Epilepsy – even when the heaviest medication is not working
- Fibromyalgia
- Gangrene and other open wounds e.g. leg ulcers that do not heal for years
- Glandular fever
- Healthy weight loss or weight gain, appetite and mal-absorption problems
- Heart attacks – Rehabilitation program
- Hepatitis, even some “terminal” patients
- High Blood pressure

- Hormonal imbalances
- Impotence
- Infections – all types
- Leaky gut syndrome
- Lupus
- Malaria – symptom free within 6 / 8 hours, no parasites detectable in the blood within 12 / 14 hours
- Malnutrition
- Meningitis and encephalitis and the rehabilitation thereof if necessary
- Mental health problems like schizophrenia, depression and bipolar disorder
- Migraine
- Multiple Sclerosis (MS) – stopped the progression and regain function lost
- Neuropathy – swollen, painful feet, legs, hands and head
- Parkinson's – in remission with improvement in their functioning
- Reproductive health problems including non-genetic infertility problems
- Sinuses
- Skin disorders like eczema, shingles, psoriasis, and fungal and bacterial disorders
- Stomach ulcers either acid or bacteria related
- Stroke – Rehabilitation of people who had a stroke or any other cardiovascular disease – even severe damage after the fact. “Cleaning of blocked arteries, “growing” of new blood vessels
- TB, MDR-TB. We are sure we can also help those with XMDR-TB
- Thyroid – over and under active
- Tropical fungal diseases – inside and skin diseases
- Unknown diseases – they did not know what they had but where extremely ill – recovered at same speed as AIDS patients
- “Unknown” paralysis and extreme fatigue – after undergoing all the tests by doctors and professors in hospitals. They are usually up and walking after 2 – 3 days
- “Untreatable Gonorrhoea”
- “Untreatable” PCP or “AIDS Pneumonia – are well in less than a week
- “Untreatable” PID (Pelvic Inflammatory Disease) – a few cases (took about 10 weeks to clear “Untreatable Syphilis” – had 6 cases – took about 6 weeks
- “Yuppy Flu” or ME or CFS Chronic Fatigue Syndrome– about 18 cases – like with AIDS, they would go shopping a week after being on the program.

Also all treated animals correspond to the same approach.

HONEST ORGANIC FOOD IS YOUR MEDICINE!

PROCESSED FOOD IS YOUR ILLNESS

ALL CHEMICAL POISONED FOOD WILL SLOWLY KILL YOU
