

COPYRIGHT

A RIGHT or NON-RIGHT?

Please note that all the material on this website is without copyright. I wrote a lot of it but in favor for healing sick people in a definite way.

If you wish to recommend material on the website then I will be honored. But please don't just help yourself to articles from this website without giving credit to the original author and/or me, giving the full website address - with a link included.

My hope, of course, is that the few people who visit the website might heal their cancers. Eventually prevent their relatives and/or children from getting cancer.

Etienne van Rattingen!
