Western Powers Won't Join Russia To Strike Saudi Arabia For Using Chemical Weapons, But Send Massive Fleet After US Troops Seize Syrian Oil Fields

A scathingly worded new **Security Council (SC)** report circulating in the Kremlin today slams the double-standard hypocrisy of the United States, Britain and France for their refusal to join a Russian-led coalition to strike **Saudi Arabia** for its illegal use of chemical and biological weapons in Yemen—with these **Western Powers**, instead, showing the true face of their “humanitarian imperialism” (that gives them the “false license” to invade anyone they so choose) by having American troops suddenly seize Syrian oil fields while the world was distracted by their illegal strikes on this country—with the **United States**, also, rushing 4,000 more of its troops to the Syrian-Jordanian border to support this outright theft of another nation’s natural resources—while at the same time, the biggest US Navy war fleet since the, likewise, 2003 illegal invasion of Iraq, continues sailing towards Syria.

According to this report, after the **United States** and its **Western** allies, over the objections of both **Russia** and **China**, successfully abolished the 73-year-old “**Law of War**” adopted by the **United Nations** in the catastrophic aftermath of **World War II** to govern what is, and is not, justification for one nation attacking another—and substituted in its place a new standard that can only be described as “we believe it happened, so it’s true” to justify attacking any nation in the world suspected of using chemical weapons—the General Staff approached the **United**

States, Britain and France yesterday to [join a coalition with Russia to begin airstrikes on Saudi Arabia](#).

Unlike in Syria, where [eyewitnesses testified that the supposed chemical attack, the West said justified their attack on that nation, was entirely made up](#), this report details, [the use of chemical and biological weapons by Saudi Arabia in Yemen has long been documented](#)—with the worst example being [the Saudis use of biological weapons in Yemen this past October \(2017\) that has resulted in the worst cholera outbreak ever recorded in human history](#)—and [the emergence of a never before seen mutated “superbug” medical scientists now warn is a threat to the entire world](#).

The immediate urgency of building a **Russian-US-UK-French** coalition to begin carrying out airstrikes against the **Saudis** for its chemical and biological weapons use in **Yemen**, this report explains, is due to the highly feared [Jaysh al-Islam](#) terrorist group [now leaving Syria and flooding into Yemen via Saudi Arabia](#)—who aside from its staging of the fake chemical attack used as justification by the **West** to attack **Syria**—but whose attack these terrorists “[called a farce](#)”—this [terror group’s use of chemical weapons in the past makes them one of the most feared in the world](#).

Of the most perplexing, and ironic, positions held by the **United States**, which bills itself as “*the world’s beacon of freedom*” as it and its **Western** allies continue their rampage across the entire **Middle East**, this report says, is its continued extermination warfare against this region’s [Alawite](#) and [Shiite Muslims](#)—whose tens-of-millions of followers stretch from **Lebanon**, through **Syria** and **Iraq**, into **Iran**—and whose liberal **Islamic** beliefs give vast freedom to women and other religious ideologies, like those of the **Christian** and **Jewish** faiths—with all of these nations, also, allowing their peoples (*including women*) to vote for their leaders—with **Syria** and **Lebanon**, also, even allowing their citizens to buy and consume alcohol if they so wish.

Instead of supporting these liberal **Alawite** and **Shiite Muslim** nations, though, this report says, the **United States**, and its **Western** allies, have, inexplicably, put their full power and military might behind the [Sunni Muslims](#) of this region—the most powerful of which is [one of the last absolute monarchies on the planet that beheads helpless women on charges of “sorcery”, and is known as Saudi Arabia](#)—and whom, [Wikileaks has just stunningly revealed](#), is actually telling

the **Americans** what to do—and as one of the **Saudis** secret diplomatic cables revealed with its ordering the **US** to “[overthrow the Syrian regime, but play nice with Russia](#)”.

Though the demonic bloodlust-loving **US** mainstream propaganda media continues lying to the **American** people by telling them that the whole world supported the illegal attack on **Syria**, this report continues, nothing could be further from the truth—and as, perhaps, best exemplified by **Czech President Miloš Zeman**—who in comparing this strike to the 2003 **US-led** illegal invasion of **Iraq**, and the, also **US-led**, 2011 illegal attack on **Libya**, stated: “[A clever person won't repeat a mistake. An unintelligent person, with a mental debility, makes two mistakes, one after another. What can we say about people, who make the same mistake three times in a row? I won't tell you, in order not to use bad words on air. 'Stupidity' is the most polite word that I can choose](#)”.

Likewise, this report notes, **Germany**, **Italy** and **Spain**, in joining the **Czech Republic**, also [refused to be compromised \[English\]](#) by this illegal **US-led** attack on **Syria**—with **German President Frank-Walter Steinmeier** even going further by warning his **Western** allies intent on war that: “[We are at the next step of escalation in the Russian-American relationship. The galloping alienation between Russia and the West must also concern us; we cannot](#)

declare **Russia** as a whole, the country and its people, to be an enemy. Our history speaks against it, and there is too much at stake.

The worst condemnation of the illegal **US-led** strike on **Syria**, though, this report details, came from the world's largest nation **China**—who pointed out the **United States** “arrogant record of launching wars on deceptive grounds”, with their further declaring that this arrogance “breeds risk and danger”—and who gravely warn:

Washington's attack on Syria where Russian troops are stationed constitute serious contempt for Russia's military capabilities and political dignity. Trump, like scolding a pupil, called on Moscow, one of the world's leading nuclear powers, to abandon its “dark path.”

Disturbingly, Washington seems to have become addicted to mocking Russia in this way...but who should know that Russia is capable of launching a destructive retaliatory attack on the West.

With it being a **100% provable fact that lies and propaganda started nearly every war in US history**, this report continues, **Russia** fully knows that this now labeled “Operation Desert Stormy” attack on **Syria** **marks the official start of World War III**—and is “the first war in history begun with so little support”—but whose immediate consequence will see **Russia** not having to respond in force to American bombs, or having to engage US forces directly—as all that has to be done now by Russia is to outlast the Americans—and that is due to the stark reality that Russia can never be defeated in any war of any kind—and whose only enemies in the world today are the **United States** and its allies, who, for the past 17 years, haven't even been able to achieve victory fighting against nomadic peoples in **Iraq** and **Afghanistan**—and whose past defeats include the **Vietnam War** the **Americans** and their allies didn't even come close to winning before their having to retreat while carrying their nearly 60,000 war dead soldiers back home—and who, sadly, died for absolutely nothing.

Knowing this fact too, this report notes, are some of the vilest **Islamic** terrorists in **Syria**, who, immediately after this illegal **US-led** attack, quickly surrendered—thus leading **Syrian President Bashar Assad** to declare that his nation “was no longer afraid of NATO”, and, likewise, caused the Syrian people to flood into streets proclaiming that they were “no longer afraid”

of Western aggression”—and who, also, thanked both Russia and the Syrian Army for protecting them from being exterminated by the West and Saudi Arabia.

With the anti-Christ demonic-globalist-led West never to be trusted, however, and in an effort to forestall any further **Western** aggression against **Syria**, this report concludes, President Putin has ordered the immediate deployment to Syria of massive numbers of tanks, military trucks and armored patrol boats—that the ever lying **US** mainstream propaganda media is failing to inform the **American** people that they are, in essence, paying for every time they put petrol (gasoline) in their vehicles—as the price per barrel of oil skyrockets with every war move and Russian sanction action the **US** and its **Western** allies make—but whose main global beneficiary of is, of course, **Russia**—that bases its entire national budget on oil being \$40 a barrel—and whose price over that (*like today being nearly \$70 a barrel*) pumps hundreds-of-millions of dollars daily into the **Russian** economy directly from the pockets of these **Western** peoples who are never allowed to know the truth—but that, nevertheless, has the **Russian** people thanking them for every war move and sanction they allow their “leaders” to make and impose, as it makes all of **Russia** richer, and the longer it lasts, the better.
