China Shocks West With Massive War Move As Entirety of Russian Military Goes On High Alert

Another ominously worded new **Security Council (SC)** report circulating in the Kremlin today states that **Western** powers were placed in shock just hours ago after a massive **Chinese** naval fleet suddenly left port to stage [a surprise live-fire drill to warn Taiwan and show support for Russia](#)—which fulfills its [mutual defense pact obligations with Russia](#)—and whose [defense pact with Iran](#), along with the [Russia-Iranian defense pact](#), and with [the entirety of Russia's military forces being put on their highest alert](#), gives [a terrifying glimpse into the opening moments of World War III](#)—and is why the **Russian** people are being [stridently advised what to bring when they enter their nuclear war protected bomb shelters](#).

According to this report, with [the entire world now teetering on the brink of total war as Western nuclear submarines move closer to Syria](#), not being told the **American** people by their “**Deep State**” warmongers is the fact that [the Syrian government has never attacked, threatened or even looked cross-eyed at the United States](#)—thus leading the entire “*peaceful*” world community to ask why [the US has illegally occupied fully one-third of the Syrian nation](#) in the first place—but that becomes understandable when one notices that [the only Syrian areas the US is occupying contains that nations vast oil and natural gas fields](#).

In the aftermath of **World War II**, that saw the **Japanese Empire** and **Nazi Germans**—*like the United States is doing today*—rampage across the world destroying whole nations in order to steal their natural resource wealth, this report explains, the **United Nations** was established in order to ensure such hostile and belligerent nations could never do this ever again—especially as the staggering death toll for this catastrophic global war exceeded [over 80 million](#).

With **Russia** (*then known as the Soviet Union*) having suffered more than any nation on **Earth** during **World War II** losing [over 20 million of its citizens](#), as opposed to the **United States** that [only lost 405,000](#), this report continues, great faith was put in the **United Nations** to avert another global war—and that it has been successful in doing for the past 73 years.

This past week, however, this report grimly details, **President Donald Trump** placed into power his new **National Security Adviser John Bolton**—and whose hostility to the **United Nations** and the very idea of international law he previously [declared by stating](#):

It is a big mistake for us to grant any validity to international law even when it may seem in our short-term interest to do so—because over the long term, the goal of those who think that international law really means anything are those who want to constrain the United States.

John Bolton's disastrous effects upon the **United Nations**, and the rule of international law, upon his appointment by **President Trump** this past week, this report continues, was immediate—and that saw the **Americans** completely ignoring the evidence placed before the **UN Security Council** by **Syria's** envoy who stated: [“The terrorists have acquired chemical substances from Libya a long time ago from the Libyan stock. This operation was facilitated by the Turkish intelligence, Saudi intelligence and the American and French intelligence services. They smuggled chemicals from Libya to Istanbul on board of civilian airlines and the guy who was in charge of transporting these substances was a guy named Haitham al-Qassar.”](#)

Also ignored by the **Americans** at the **UN Security Council** meeting, this report notes, was evidence showing that the **Jaysh al-Islam** militants, who claimed **Syria** had attacked them chemicals, when forced to give up their weapons, [found them in possession of Israeli-made sniper rifles and Belgian-made rockets and machine guns](#) they could only have gotten from the **West**—with the **Russian General Staff** further stating that: [“On 7 April, probably the last attempt](#)

to stage a chemical weapons attack in Eastern Ghouta was made. The notorious White Helmets, who operate as part of terrorist groups, staged and filmed a chemical weapons attack on civilians in the town of Douma.”

Foreign Minister Sergei Lavrov, also, this report says, reported to the United Nations that: “We have the irrefutable data that this chemical attack was staged....and the intelligence service of a country, which is now seeking to be first in the ranks of the Russophobic campaign, was involved in this staged event.”

U.S. 'backed plan to launch chemical weapon attack on Syria and blame it on Assad's regime'

- Leaked emails from defense contractor refers to chemical weapons saying 'the idea is approved by Washington'

Completely ignoring the overwhelming evidence presented to it at the UN Security Council meeting that this supposed chemical attack, if it was anything, was a staged “*false flag*” event initiated by Western intelligence services in order to justify an attack on Syria, this report continues, the John Bolton-led Americans then, and astoundedly, claimed that the UN-controlled World Health Organization (WHO) had verified that this attack occurred—but who had done no such thing as the WHO itself admitted that its only evidence were reports from the White Helmets who had carried out this attack for its Western intelligence backers—and that led Bolivia’s UN Ambassador Sacha Llorenti to warn the US that any attack on Syria would be an attack on the entire UN system, and who further stated: “The problem is that the United States believes and it acts as if it’s above any law. They believe they have their own rules and it’s not the case.”

Bolivian Ambassador Sacha Llorenti at UN Security Council meeting slams US lies about comparing them to when US Secretary of State Colin Powell lied to the UN about Iraq having weapons of mass destruction

With [the “wheels of war” already in motion](#), this report says, the stopping of catastrophic global conflicts in times past saw the **Western** mainstream media push for the truth to be told to their citizens before needless bloodshed occurred—but who are nowhere in sight today—and as evidenced by [nearly all of America’s major newspapers urging President Trump to kill Syrians even if it risks World War III](#)—with [the New York Times even shockingly declaring that the US should ramp up its war on Syria without UN approval](#).

With [the United States being warned that its threats against Syria are a violation of the UN Charter and of itself](#), this report concludes, if it really wants to break all international laws and start a war, that’s what **Russia** will give it—but with the **Security Council** strongly advising the **Americans** to first listen to one of their top **Russian** experts named [Gilbert Doctorow](#)—who [just warned US lawmakers in Washington what the grim reality of World War III will be for their nation](#):

The Russians know that they can, at will within a few minutes, sink the entire US fleet, destroy every US airplane and ship in the Middle East and within range of the Middle East, completely destroy all of Israel’s military capability and wipe out the military of the two-bit punk state of Saudi Arabia.

All the sitting ducks have been set up for by the arrogant and stupid Americans. Just a few minutes of Russian attack and all ability to conduct war would be stripped from the Middle East.

It will be about 10 days before the ships, all sitting ducks, reach the point where they can be easily disposed of.

This gives the Joint Chiefs of Staff 10 days to overrule Trump’s insane war cabinet and put the military halt to Armageddon.
