

# Central Banks Controlled by the Rothschilds

## Only Four Countries Left Without a ROTHSCHILD Central Bank

November 2016

Source: [Humans Are Free](#)

The Rothschild family is slowly but surely having their Central banks established in every country of this world, giving them incredible amount of wealth and power.

In the year of 2000 there were seven countries without a Rothschild owned or controlled Central Bank:

- Afghanistan
- Iraq
- Sudan
- Libya
- Cuba
- North Korea
- Iran

It is not a coincidence that these country, which are listed above were and are still being under attack by the western media, since one of the main reasons these countries have been under attack in the first place is because they do not have a Rothschild owned Central Bank yet.

The first step in having a Central Bank establish in a country is to get them to accept an outrageous loans, which puts the country in debt of the Central Bank and under the control of the Rothschilds.

If the country does not accept the loan, the leader of this particular country will be assassinated and a Rothschild aligned leader will be put into the position, and if the assassination does not work, the country will be invaded and have a Central Bank established with force all under the name of terrorism. (See the REAL HISTORY of Syria since the existence of Israël)

## **Rothschild-owned or controlled Central Banks**

Central banks are illegally created private banks that are owned by the Rothschild banking family.

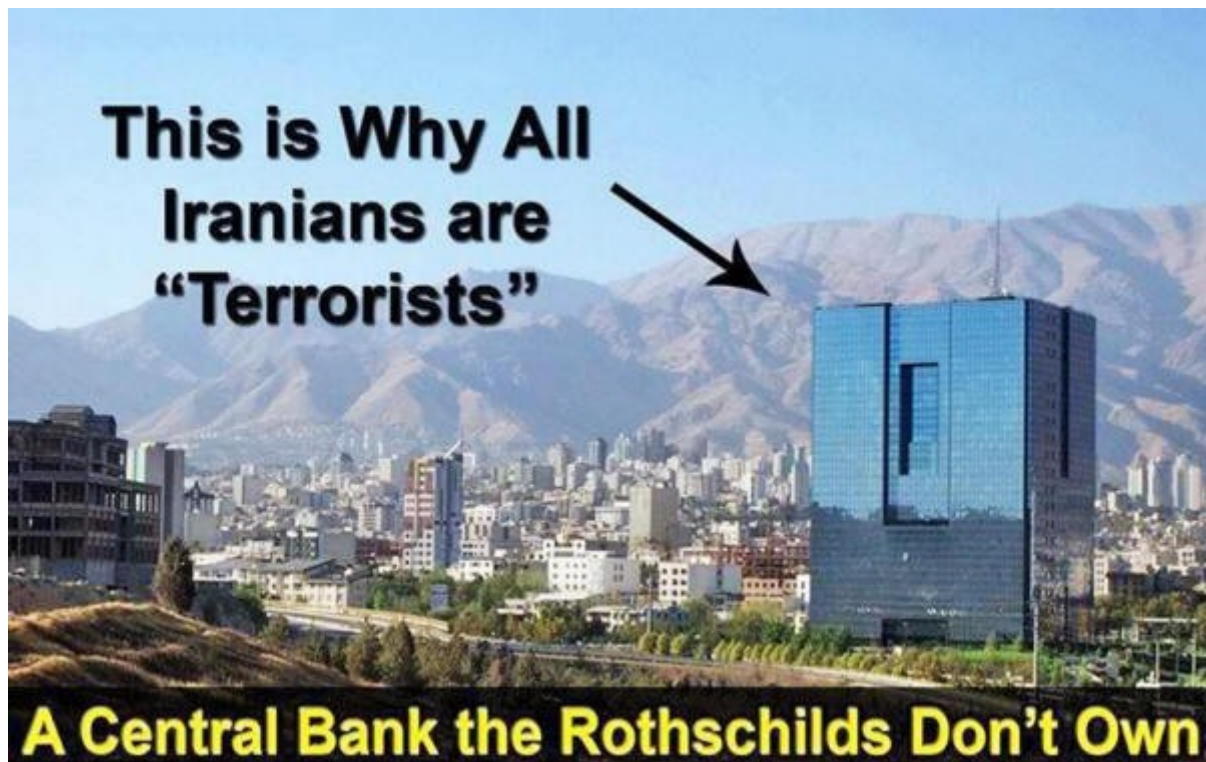

The family has been around for more than 230 years and has slithered its way into each country on this planet, threatened every world leader and their governments and cabinets with physical and economic death and destruction, and then emplaced their own people in these central banks to control and manage each country's pocketbook.

Worse, the Rothschilds also control the machinations of each government at the macro level, not concerning themselves with the daily vicissitudes of our individual personal lives. Except when we get too far out of line...

The only countries left in 2003 without a Central Bank owned or controlled by the Rothschild Family were:

- Sudan
- Libya
- Cuba
- North Korea
- Iran

The Attacks of September 11th were an inside job to invade Afghanistan and Iraq to then establish a Central Bank in those countries.

The only countries left in 2018 without a Central Bank owned or controlled by the Rothschild Family are:

- Cuba
- North Korea
- Iran
- Syria

After the instigated protests and riots in the Arab countries the Rothschild finally paved their way into establishing Central Banks, and getting rid of many leaders, which put them into more power.

## **The FED and the IRS = ECB and TAX for EU**

Virtually unknown to the general public is the fact that the US Federal Reserve (FED) is a privately owned company, as all nationale banks and ECB in EU, sitting on its very own patch of land, immune to the US laws.

This privately owned company controlled by the,

Rothschilds  
Rockefellers  
Morgans,

...prints the money FOR the US and EU Governments, which pays them interest for the "favor."

This means that if we would reset the nation's debt today and would begin reprinting money, we would be in debt to the FED from the very first dollar loaned to our Government.

Also, most people living in the USA have no clue that the Internal Revenue Service (IRS) is a foreign agency.

To be more accurate, the IRS is a foreign private corporation of the International Monetary Fund (IMF) and is the private "army" of the Federal Reserve (FED).

Its main goal is to make sure the American / EU people pay their tax and be good little slaves.

You can read more on the subject [here](#).

In 1835, US President Andrew Jackson declared his disdain for the international bankers:

"You are a den of vipers. I intend to rout you out, and by the Eternal God I will rout you out. If the people only understood the rank injustice of our money and banking system, there would be a revolution before morning."

There followed an (unsuccessful) assassination attempt on President Jackson's life. Jackson had told his vice president, Martin Van Buren:

"The bank, Mr. Van Buren, is trying to kill me."

This was the beginning of a pattern of intrigue that would plague the White House itself over the coming decades. Both Lincoln and JFK have been murdered for trying to rid the country of banksters.

## **The world's Megabanks**

There are two Megabanks that offer loans to all the countries around the planet, the World Bank and the IMF.

The first one is jointly owned by the world's top banking families, with the Rothschilds at the very top, while the second one is privately owned by the Rothschilds alone.

These two Megabanks offer loans to "developing countries" and use their almost impossible-to-pay-back interests to get their hands on the real wealth: land and precious metals.

But that's not all! An important part of their plan is to also exploit a country's natural resources (like petrol or gas) via their covertly-owned companies, refine them, and sell them back to the same country, making a huge profit.

But in order for these companies to operate optimally, they need a solid infrastructure, which is usually lacking in the so called "developing countries." So before the banksters even offer the almost impossible-to-pay-back loans, they make sure that most of the money will be invested in - you've guessed it - infrastructure.

These "negotiations" are carried out by the so called "Economic Hitmen", who succeed by handsomely rewarding (i.e. bribing) or threatening with death those who are in the position to sell away their country.

For more information on the subject, I suggest reading the [Confessions of an Economic Hitman](#).

The one bank that rules them all, the "[Bank for International Settlement](#)," is - obviously - controlled by the Rothschilds and it is nicknamed the "Tower of Basel."

## **The true power of the Rothschilds goes FAR beyond the Banking Empire**

If you are not yet amazed by the power of the Rothschilds (I know you are), please know that they are also behind all wars since Napoleon.

That's when they've discovered just how profitable it is to finance both sides of a war and they've been doing it ever since.

In 1849, Guttle Schnapper, the wife of Mayer Amschel stated:

"If my sons did not want wars, there would be none."

So, the world is still at war because it is very, very profitable to the Rothschilds and their parasite bankster bloodlines. And for as long as we will continue to use money, the world will never know peace.

It is shocking for many to find out that the United States of America is a corporation ruled from abroad.

Its original name was the Virginia Company and it was owned by the British Crown (it should not be mistaken for the Queen, which functions largely in a ceremonial capacity only).

The British Crown donated the company to the Vatican, which gave the exploitation rights back to the Crown. The US Presidents are appointed CEOs and their business is to make money for the British Crown and the Vatican, who take their share of the profits every year.

The British Crown covertly rules the world from the 677-acre, independent sovereign state, know as The City of London.

This other Crown is comprised of a committee of 12 banks headed by the Bank of England. Guess who is controlling the Bank of England? Yup, the Rothschilds!

In 1815, Nathan Mayer made the following statement:

"I care not what puppet is placed upon the throne of England to rule the Empire on which the sun never sets. The man who controls Britain's money supply controls the British Empire, and I control the British money supply."

The House of Rothschild is really at the top of the pyramid of power.

They are behind the New World Order and the complete domination of the world agenda. They are behind the European Union and the Euro and they are behind the idea of a North American Union and the Amero.

They are controlling all of the world's secret services and their private army is NATO.

Could gaining control of the Central Bank of the Islamic Republic of Iran (CBI) be one of the main reasons that Iran is being targeted by Western and Israeli powers?

As tensions are building up for an unthinkable war with Iran, it is worth exploring Iran's banking system compared to its U.S., British and Israeli counterparts.

Some researchers are pointing out that Iran is one of only four countries left in the world whose central bank is not under Rothschild control.

Before 9-11 there were reportedly seven:

Afghanistan, Iraq, Sudan, Libya, Cuba, North Korea and Iran.

By 2003, however, Afghanistan and Iraq were swallowed up by the Rothschild octopus, and by 2011 Sudan and Libya were also gone.

In Libya, a Rothschild bank was established in Benghazi while the country was still at war.

Islam forbids the charging of interest, a major problem for the Rothschild banking system. Until a few hundred years ago, charging interest was also forbidden in the Christian world and was even punishable by death. It was considered exploitation and enslavement.

Since the Rothschilds took over the Bank of England around 1815, they have been expanding their banking control over all the countries of the world.

Their method has been to get a country's corrupt politicians to accept massive loans, which they can never repay, and thus go into debt to the Rothschild banking powers.

If a leader refuses to accept the loan, he is oftentimes either ousted or assassinated. And if that fails, invasions can follow, and a Rothschild usury-based bank is established.

The Rothschilds exert powerful influence over the world's major news agencies. By repetition, the masses are duped into believing horror stories about evil villains.

Not every item of news should be published. Rather must those who control news policies endeavor to make every item of news serve a certain purpose.

We are grateful to the Washington Post, the New York Times, Time Magazine, and other great publications (the [Mainstream/Mass-Media](#)) whose directors have attended our meetings and respected their promises of discretion for almost forty years. It would have been impossible for us to develop our plan for the world if we had been subject to the bright lights of publicity during these years. But, the world is now more sophisticated and prepared to march towards a world government. The supernational sovereignty of an intellectual elite and world bankers is surely preferable to the national auto-determination practiced in past centuries.

Also they own most of the gold in the world as well as the London Gold Exchange, which sets the price of gold every day.

It is said the family owns over half the wealth of the planet - estimated by Credit Suisse to be \$231 trillion - and is controlled by the current head of the family.

Objective researchers contend that Iran is not being demonized because they are a nuclear threat, just as the Taliban, Iraq's Saddam Hussein and Libya's Muammar Qaddafi were not a threat.

What then is the real reason?

- Is it the trillions to be made in oil profits, or the trillions in war profits?
- Is it to bankrupt the U.S. economy, or is it to start World War III?
- Is it to destroy Israel's enemies, or to destroy the Iranian central bank so that no one is left to defy Rothschild's money racket?

**It might be any one of those reasons or, worse - it might be all of them...**
